Ankara, TR

Senior Frontend Engineer with 8+ years of experience building scalable web & mobile applications using React and React Native. Skilled in architecture decisions, performance optimization, and early-stage product development. I've delivered end-to-end solutions across fintech, e-commerce, and SaaS products, improving delivery speed, product usability, and UI performance in both enterprise and startup environments.

Work Experience

Crea Inc | Senior Frontend Engineer

Jan 2023 - Present

Developing scalable web and mobile applications, leading UI architecture decisions, improving front-end performance, and shaping reusable component systems used across internal products.

Tech Stack: React, Next.js, React Native, TypeScript, Redux Toolkit, RTK Query, React Context API, Auth0, Mantine, Gluestack

Hirehoot | Founding Frontend Engineer

May 2024 - Nov 2025 (1 yr, 6 mos)

Joined as part of the founding team and led the initial frontend architecture, design system, and core product implementation. Transitioned ongoing development to the engineering team after MVP rollout while continuing as an equity-holding founding member.

Tech Stack: React, Next.js, TypeScript, Zustand, React Query, React Context API, Clerk, Tailwind

Vodafone & Hepsiburada | Frontend Engineer

Aug 2021 - Jan 2023 (1 yr, 6 mos)

Delivered core UI features for e-wallet and e-commerce platforms serving millions of users, improving frontend performance and user flow responsiveness. Actively collaborated with backend, product, and QA teams to drive smooth releases and reduce UI-related defects.

Tech Stack: React, Redux Toolkit, React Context API

Puente Global | Frontend Engineer

Aug 2020 - Aug 2021 (1 yr)

Front-end development at Puente across React and React Native projects, including building the KitapDinler audiobook app from scratch with offline listening and note-taking features.

Tech Stack: React, React Native, TypeScript, GraphQL, React Context API

Aselsan | Frontend Engineer

Aug 2019 - Aug 2020 (1 yr)

Front-End Engineer at Aselsan (via OBSS), developing React-based UIs for UGES and ADY internal platforms with a focus on usability and smooth integration.

Tech Stack: React, MobX, Keycloak

Bilişim AŞ | Frontend Engineer

Aug 2017 - Aug 2019 (2 yrs)

JavaScript-based development at Bilişim A.Ş. on BI and data visualization projects, including CBRT EVDS and Bilişim BI, focusing on UI enhancements, feature delivery, and ongoing product support.

Tech Stack: Javascript, JQuery, React Native, Redux, Php, Java

Bilişim AŞ | Internship

Jun 2017 - Aug 2017

UZ Consulting International | Internship

Jun 2015 - Sep 2015

Freelance Projects

InStorey | Built and launched the InStorey mobile app with React Native (Expo), focused on a polished and user-friendly experience for boutique discovery.

VisitUrgup | Built and launched the Visit Ürgüp mobile app as a freelancer, owning the full React Native (Expo) development lifecycle.

Tusworld | Co-developed the Tusworld mobile learning app from scratch to launch, enabling access to live and recorded courses using React Native.

Core Skills

React, React Native, Next.js, JavaScript, TypeScript, Redux Toolkit, ContextAPI, Zustand, Recoil, React Query, RTK Query, Auth0, Clerk, Tailwind

Education**Hacettepe University**

Oct 2011 - Mar 2019

Computer Engineering (GPA: 2,56/4)

Selim Nevzat Şahin Anatolian High School

Oct 2006 - Jun 2010

Math-Science (GPA: 82,11/100)

Languages & Interests

English - Intermediate (working level)

Traveling, Camping, Pottery
